Mr Rakha — Market Brief

Oct 7, 2026 · @Nosseir

Demand for Cambridge IGCSE keeps growing, and from March 2027 the Business exam rewards application. A teacher known for explaining real-world business has the most timely position in the market.

Demand and the 2027 change

Demand is high and growing worldwide (high confidence). There is no public Egypt-only figure.

- **Global growth:** Cambridge IGCSE had about 740,000 entries in June 2025, up 5% on June 2024. Entries grew 74% over five years (Cambridge).
- **Egypt:** Cambridge is the dominant board in Egypt and the Middle East. Families at international schools often add tutoring in exam years (Tutopiya Cairo guide).
- **The change that matters most:** IGCSE Business Studies 0450 is replaced by **IGCSE Business 0264** from the March 2027 exams (Cambridge syllabus):
  - It keeps the same six units and two 80-mark papers.
  - Knowledge drops from 40% to 35% of the marks. Application is 30%, analysis 22%, evaluation 13%.
  - Paper 1 questions have four parts instead of five. Every Paper 2 part (a) is now applied to the case.
  - New topics: technology and sustainable production. A list of formulas is added.
  - Source for these details: Tutopiya 0264 vs 0450.
- **O-level and Economics:** O-level Business has a new syllabus with first exams in 2027 (Save My Exams). Economics 0455 and 2281 run on 2027–2029 syllabuses.

What this means: this year's students and parents face a new exam with no past papers. A teacher who calmly explains the change, and trains real-world application every week, becomes the obvious choice.

Prices, channels and what decides

Mr Rakha should price as premium and win on proof and experience, not on hourly rate. His current price is still unknown.

Tier	Price seen	Source
Budget: Cairo centers, national system (2024)	100–150 EGP per session	priceandoffers
Online IGCSE platforms	from 350–450 EGP per hour	Tutopiya, STO
Private tutors on marketplaces	540–1,400 EGP per session	Modarby
IGCSE school fees (context: what families already pay)	30,000–180,000+ EGP per year	s3rk

Where families find a teacher (estimate, based on the scan):

1. Word of mouth: older siblings, classmates, school WhatsApp groups
2. Facebook parent groups and teacher pages (parents)
3. Instagram and TikTok (students shortlist; parents check before paying)
4. WhatsApp: where the actual sign-up happens

What parents decide on: teacher quality and credentials, measurable results, personal attention, and fit to the exact syllabus (Tutopiya Cairo guide). **Students** decide on whether the class is enjoyable and whether friends go.

Season calendar

The two enrolment windows are January (after results and mocks) and August–September (new year). Authority built in Oct–Dec pays off in January.

When	Moment	What content should do
28 Sep – 13 Nov 2026	Oct/Nov exam series in Egypt (Tutopiya)	Last-minute exam help that builds trust; launch the accounts
Nov – Dec 2026	Mid-year, before mocks	Authority: real-world series, explaining the 0264 change
Jan – Feb 2027 (estimate)	School mocks	"Where the marks go" series; waitlist for the final stretch
14 Jan 2027	Oct/Nov results	Results stories; retakers looking for a teacher
Feb – Apr 2027 (estimate)	Year 9 subject choices	"Business or Economics?" content for students and parents

When	Moment	What content should do
March 2027	First 0264 Business exams (India series)	"What the first 0264 paper tells us"
Late Apr – early Jun 2027 (estimate)	May/June series	Final-stretch revision; class moments
Aug 2027	Results day (18 Aug in 2026)	The biggest proof moment, with student testimonials
Aug – Sep 2027	New academic year	Main enrolment push

Opportunities and open questions

Ranked opportunities:

1. **"The Brief": real-world business, explained through the syllabus.** This is the gap no Egyptian teacher fills, and it trains the application marks 0264 rewards. First step: 4 Briefs on the first shoot day.
2. **Owning the 0264 change.** A calm explainer carousel and reel before the January mocks. First step: one carousel made with code, no shoot needed.
3. **Results and testimonials.** The strongest buying trigger for parents. First step: collect past results, plus 3 student and parent testimonials with consent, by the shoot day.

What we still don't know, and how to find out cheaply:

- [ ] His price, class format (online, center or home) and seats left. Ask him.
- [ ] Verified results history: A*/9 counts by year. Ask him for result slips with names hidden.
- [ ] Whether parents respond to the editorial look. Test: run the same Brief as an editorial post and as a plain post in week 3, then compare saves and shares.
- [ ] Demand for a January "final stretch" course. Test: a waitlist on WhatsApp in December; 30+ sign-ups means go.

Search-based research only: most sites are blocked from this session, so figures come from search results dated as shown. Prices are national averages, not his niche.
