Physiocure Egypt: monthly plans

More patients from Google, Instagram and WhatsApp, starting with the fixes from the audit

Ismail Nosseir · 18 Oct 2026

Every plan starts with the Google fix (month 1)

Correct street address and landmark, WhatsApp and social links, services listed, clinic and team photos, calm replies to all 19 one-star reviews, and a QR review card for reception.
2,000 EGP one-time, free with a 3-month plan.

Google & Reviews

3,000 EGP / month

- Google profile managed: weekly photos and posts
- Replies to every review within 48 hours
- Review QR card + after-session WhatsApp message
- Monthly report: rating, reviews, calls, direction requests

RECOMMENDED

Growth

7,500 EGP / month

- Everything in Google & Reviews
- Instagram + Facebook: 8 posts a month, 4 of them reels (exercises, tips, behind the scenes)
- 3 stories a week
- One 2-hour shoot at the clinic each month
- WhatsApp booking link everywhere
- Monthly report including bookings from social

Growth + Ads

10,000 EGP / month

- Everything in Growth
- Meta ads for one treatment (e.g. back pain) sending patients to WhatsApp
- Weekly optimisation and cost-per-booking tracking
- Ad budget paid by the clinic directly to Meta, from 5,000 EGP / month

Optional: a one-page website (treatments, WhatsApp booking, map, linked from Google): 7,000 EGP one-time.

How it works

- 3-month minimum, then month to month. Paid at the start of each month; the Google fix is paid up front if taken alone.
- All accounts stay yours. You add me as a manager on Google and Meta, and I never need your passwords.
- No patient faces or names without written consent, and no medical claims in any post. You approve content before it goes live.
- One contact person on your side for approvals, ideally within 24 hours.

Results I've delivered: for Grapes Holiday I cut ad spend 62.5% while leads grew 2.5×. Rihla Travel made 350,000+ EGP in its first two weeks of campaigns.
